A bidders mailing list application gives you the opportunity to identify yourself as a potential bidder for the types of goods and services that your firm provides. The Purchase Bureau attempts (but does not guarantee) to provide firms on the bidders mailing list with notice of bidding opportunities related to the goods and services identified in the application.

If you are already on the Purchase Bureau's bidders mailing list and you need to change your information, contact Bid List Management at (609) 984-5396

Note: If you are an awarded State contractor and payments are not being directed to your proper remit-to address, you must send a letter on company letterhead to the Office Of Management and Budget, Vendor Control Unit, PO Box 221, Trenton, NJ 08625 or fax that letter to 609-292-4882. 1.0 INFORMATION FOR BIDDERS

1.1 PURPOSE AND INTENT

This Request for Proposal (RFP) is issued by the Purchase Bureau, Division of Purchase and Property, Department of the Treasury on behalf of NJ Division of Fish and Wildlife, Bureau of Freshwater Fisheries, Department of Environmental Protection. The purpose of this RFP is to solicit bid proposals for the study of the productivity, water quality, and plankton community of Round Valley Reservoir, located in Hunterdon County, New Jersey.

The Standard Terms & Conditions, [Appendix 1](#) of this RFP, will apply to all contracts or purchase agreements made with the State of New Jersey. These terms are in addition to the terms and conditions set forth in this RFP and should be read in conjunction with same unless the RFP specifically indicates otherwise.

The expected services are described in [RFP Section 3.0](#) (Scope of Work).

The intent of this RFP is to award a contract to that responsible bidder whose bid proposal, conforming to this RFP, is most advantageous to the State, price and other factors considered.

1.2 BACKGROUND

Round Valley Reservoir (RVR) is located approximately 800 meters south of Lebanon Boro in Hunterdon County, and is situated in an elliptical valley in the top of Cushetunk Mountain. Construction of RVR was completed in 1965, and with a pumping system that draws water from the South Branch of the Raritan River, reached capacity during the spring of 1973 (New Jersey Division of Fish, Game & Shell Fish 1974). Although the primary function of this off-stream impoundment is water supplementation for the Raritan River and metropolitan northeast New Jersey, recreational angling opportunities are also an important component of this widely utilized multi-use system. RVR supports viable and popular black bass and trout fisheries (New Jersey Division of Fish & Wildlife), and is one of the top three angling destinations within the state of New Jersey.

The influx of nutrients from submerged decaying organic matter caused poor water quality and high oxygen demands after the initial flooding / filling of the reservoir. However, with a very small (essentially no) watershed, external nutrient sources are limited; and by 1970 RVR had used up the nutrient load from the submerged vegetation. Once the initial massive influx of nutrients was exhausted and with few available external nutrient sources, water quality improved. Dissolved oxygen concentrations exceeded 5 parts per million (ppm) in all depths and seasons, and RVR developed into the borderline mesotrophic/oligotrophic system it is today. In May of 2001, the New Jersey State Legislature mandated that summer water levels in Spruce Run Reservoir not drop more than eight feet from each year's June 1st elevation (New Jersey P.L. 2001, c.82, s.3). As RVR is a supply source for Spruce Run Reservoir, this necessitated an increase in the frequency and volume of releases from RVR. To restore RVR to full capacity, water must be pumped in from the South Branch of the Raritan River, a large developed watershed. The pumping station is located downstream from the city of Clinton's wastewater treatment facility and water pumped to the reservoir is nutrient rich.

Despite the potential positive effects of this new recurrent nutrient introduction to the system, productivity in RVR remains a concern. A previous study of the plankton community noted seasonal zooplankton succession, with copepods dominating the population most of the year (Ovie 1985). Of the dominant and ecological species, daphnia were among the least abundant (Ovie 1985). Ovie (1985) also noted that daphnia were the most prevalent item in alewife stomachs. Current lake management includes stocking RVR with alewife as a forage base for lake trout. Recent problems have been noted in the alewife community. Productivity and water quality in the system need to be evaluated to determine if they are at or near critical values, and if RVR can continue to support this important forage species.

The New Jersey Division of Fish and Wildlife (NJDFW) is seeking to fund a study of the productivity, water quality, and plankton community of RVR, located in Hunterdon County, New Jersey for up to FIVE (5) YEARS. The number of sampling events may be modified by NJDFW if pumping from the South Branch of the Raritan River to RVR (determined by the New Jersey Water Supply Authority) is not scheduled in a given year. The contractor or its sanctioned subcontractors must possess the necessary lab space, equipment, and expertise to execute the work according to the stated standards.

3.1 PRIMARY WATER QUALITY

The contractor shall test water quality in accordance with methods approved by the U.S. Environmental Protection Agency, American Public Health Association (APHA), and American Society for Testing and Materials. If subcontracting the water quality testing, the contractor shall assure the quality of methods by the subcontracting laboratory.

The location (latitude and longitude) of three (3) to four (4) RVR fixed sampling stations (based on cost per sampling station) will be determined by NJDFW personnel, and need not be included in any proposal. The following water quality parameters shall be measured at all of the fixed stations at surface, mid-water, and bottom depths **up to** nine (9) sampling events each year: two (2) each in April, May, and June, and one (1) each in March, August and December.

- Temperature
- Dissolved Oxygen
- pH
- Secchi disc
- Chlorophyll a – (surface only)
- Nitrate nitrogen
- Kjeldahl nitrogen
- Total phosphorous
- Orthophosphorous
- Total suspended solids

3.2 SECONDARY WATER QUALITY

In addition to the above measurements, the following three (3) parameters shall be collected at surface, mid-water, and bottom depths **up to** two (2) times per year; once in the spring and once in late summer at the aforementioned stations.

- Conductivity
- Biochemical Oxygen Demand (BOD)
- Chemical Oxygen Demand (COD)

The following three (3) parameters shall be collected at the surface **up to** two (2) times per year; once in the spring and once in late summer at the aforementioned stations:

- Dissolved organic carbon
- Total dissolved solids
- Turbidity

3.3 PLANKTON SAMPLING

The plankton community shall be sampled **up to** twelve (12) times per year. The sampling events will likely occur two (2) times per month at each of the aforementioned fixed stations from March through August.

Phytoplankton – Two (2) separate one (1) liter samples for each stratum (epilimnion and hypolimnion) shall be preserved with Lugols solution. The first sample is to get net phytoplankton dry weights and the second is for enumeration and identification. In the laboratory the volume of each sample shall be measured and concentrated to a final volume of 15 ml by settling. Settling times must conform to APHA

recommendations. Phytoplankton shall be enumerated and identified to major taxonomic group (e.g. dinoflagellates, chlorophytes, diatoms, etc.).

Zooplankton – Two (2) replicate vertical hauls, bottom to surface at each station shall be collected and preserved in Lugols solution. One sample shall be concentrated to volume of 50 ml, and replicate aliquots removed for zooplankton identification to major taxonomic group (e.g. rotifers, copepods, etc.), enumeration, and body length measurements. The second sample shall be concentrated for net plankton biomass determination.

3.4 REPORTS

Semi-annual progress reports detailing activities (i.e. field samples taken, laboratory results returned) shall be submitted with payment invoice. Payment of invoice is contingent upon receipt of semi-annual report, and will not be paid if said report is not completed.

Annual reports analyzing findings (and including introduction, methods, results, and discussion sections) for each year shall be delivered to the State Contract Manager prior to the end of the calendar year in which work was conducted. End of year payment is contingent upon receipt of annual report, and will not be paid prior to receiving said report.

The contractor shall deliver a final report detailing the findings of the multi-year study to the State Contract Manager prior to the conclusion of the last fiscal year in which work was conducted (i.e. 06/30/2009). The final report shall summarize the results of all the annual reports. In addition, comparisons between the years shall be made, conclusions about the trophic state/health of the system made, and how these comparisons and conclusions relate to the overall RVR fishery. The final report shall include an introductory section, a methods section detailing how samples were gathered and what statistical analysis were used, a results section with appropriate statistics, tables, and figures included, a discussion section citing relevant literature, and a literature cited section. Final project payment is contingent upon receiving the final report, and will not be paid prior to receipt and approval of said report by the State Contract Manager.

4.0 PROPOSAL PREPARATION AND SUBMISSION

4.1 GENERAL

The bidder must follow instructions contained in this RFP and in the bid cover sheet in preparing and submitting its bid proposal. The bidder is advised to thoroughly read and follow all instructions.

The information required to be submitted in response to this RFP has been determined to be essential in the bid evaluation and contract award process. Any qualifying statements made by the bidder to the RFP's requirements could result in a determination that the bidder's proposal is materially non-responsive. Each bidder is given wide latitude in the degree of detail it elects to offer or the extent to which plans, designs, systems, processes and procedures are revealed. Each bidder is cautioned, however, that insufficient detail may result in a determination that the bid proposal is materially non-responsive or, in the alternative, may result in a low technical score being given to the bid proposal.

4.2 PROPOSAL DELIVERY AND IDENTIFICATION

In order to be considered, a bid proposal must arrive at the Purchase Bureau in accordance with the instructions on the RFP cover sheet. Bidders submitting proposals are cautioned to allow adequate delivery time to ensure timely delivery of proposals. The bidder must complete the attached Affirmative Action Employee Information Report, or, in the alternative, supply either a New Jersey Affirmative Action Certificate or evidence that the bidder is operating under a Federally approved or sanctioned affirmative action program. - E) References and Literature Citations: Should be included but will not be counted in the 15-page project description limit.

4.4.2.1 MANAGEMENT OVERVIEW

The bidder shall set forth its overall technical approach and plans to meet the requirements of the RFP in a narrative format. This narrative should convince the State that the bidder understands the objectives that the contract is intended to meet, the nature of the required work and the level of effort necessary to successfully complete the contract. This narrative should convince the State that the bidder's general approach and plans to undertake and complete the contract are appropriate to the tasks and subtasks involved.

Mere reiterations of RFP tasks and subtasks are strongly discouraged, as they do not provide insight into the bidder's ability to complete the contract. The bidder's response to this section should be designed to convince the State that the bidder's detailed plans and approach proposed to complete the Scope of Work are realistic, attainable and appropriate and that the bidder's bid proposal will lead to successful contract completion.

4.4.2.2 CONTRACT MANAGEMENT

The bidder should describe its specific plans to manage, control and supervise the contract to ensure satisfactory contract completion according to the required schedule. The plan should include the bidder's approach to communicate with the State Contract Manager including, but not limited to, status meetings, status reports, etc.

If key dates are a part of this RFP, the bidder's schedule should incorporate such key dates and should identify the completion date for each task and sub-task required by the Scope of Work. Such schedule should also identify the associated deliverable item(s) to be submitted as evidence of completion of each task and/or subtask.

The bidder should identify the contract scheduling and control methodology to be used and should provide the rationale for choosing such methodology. The use of Gantt, Pert or other charts is at the option of the bidder.

4.4.2.4 MOBILIZATION AND IMPLEMENTATION PLAN

The chart should include the labor category and title of each such individual.

4.4.3.3 RESUMES

Detailed resumes should be submitted for all management, supervisory and key personnel to be assigned to the contract. Resumes should be structured to emphasize relevant qualifications and experience of these individuals in successfully completing contracts of a similar size and scope to those required by this RFP. Resumes should include the following:

- Clearly identify the individual's previous experience in completing similar contracts.
- Beginning and ending dates should be given for each similar contract.

- With respect to each similar contract, the bidder should include the name and address of each reference together with a person to contact for a reference check and a telephone number.

4.4.3.4 BACKUP STAFF

The bidder should include a list of backup staff that may be called upon to assist or replace primary individuals assigned. Backup staff must be clearly identified as backup staff.

4.4.3.5 ORGANIZATION CHART (ENTIRE FIRM)

The bidder should include an organization chart showing the bidder's entire organizational structure. This chart should show the relationship of the individuals assigned to the contract to the bidder's overall organizational structure.

4.4.3.6 EXPERIENCE OF BIDDER ON CONTRACTS OF SIMILAR SIZE AND SCOPE

The bidder should provide a comprehensive listing of contracts of similar size and scope that it has successfully completed, as evidence of the bidder's ability to successfully complete the services required by this RFP. Emphasis should be placed on contracts that are similar in size and scope to the work required by this RFP. A description of all such contracts should be included and should show how such contracts relate to the ability of the firm to complete the services required by this RFP. For each such contract, the bidder should provide the name and telephone number of a contact person for the other contract party. Beginning and ending dates should also be given for each contract.

4.4.3.7 FINANCIAL CAPABILITY OF THE BIDDER

4.4.4 SECTION 4 - COST PROPOSAL

The price schedule is attached to this RFP as [Attachment 4](#).

Failure to submit all requested pricing information may result in the bidder's proposal being considered materially non-responsive. Each bidder must hold its price(s) firm through issuance of contract to permit the completion of the evaluation of bid proposals received and the contract award process. The bidder must submit a fully loaded firm fixed price for each sampling event along with a fully loaded firm fixed price for preparation of related reports as described in RFP Sections 3.1, 3.2, 3.3 & 3.4.

5.0 SPECIAL TERMS AND CONDITIONS

5.1 PRECEDENCE OF CONTRACTUAL TERMS AND CONDITIONS

The contract shall consist of this RFP, addenda to this RFP, the vendor's bid proposal, and the Division's Notice of Acceptance.

Unless specifically noted within this RFP, the Special Terms and Conditions, take precedence over the Standard Terms and Conditions, attached as [Appendix 1](#)

In the event of a conflict between the provisions of this RFP, including the Standard Terms and Conditions and the Special Terms and Conditions, and any addendum to the RFP, the addendum shall govern.

In the event of a conflict between the provisions of this RFP, including any addendum to this RFP, and the bidder's proposal, the RFP and/or the addendum shall govern.

5.2 PERFORMANCE BOND

Not applicable to this RFP.

5.3 BUSINESS REGISTRATION

See Standard Terms & Conditions, [Appendix 1, Section 1.1](#).

5.4 CONTRACT TERM AND EXTENSION OPTION

The term of the contract shall be for a period of five (5) years. The anticipated "Contract Effective Date" is provided on the cover sheet of this RFP ([page 3 of this RFP](#)). If delays in the bid process result in an adjustment of the anticipated Contract Effective Date, the bidder agrees to accept a contract for the full term of the contract.

5.5 CONTRACT TRANSITION

In the event services end by either contract expiration or termination, it shall be incumbent upon the contractor to continue services, if requested by the Director, until new services can be completely operational. The contractor acknowledges its responsibility to cooperate fully with the replacement contractor and the State to ensure a smooth and timely transition to the replacement contractor. Such transitional period shall not extend more than ninety (90) days beyond the expiration date of the contract, or any extension thereof. The contractor will be reimbursed for services during the transitional period at the rate in effect when the transitional period clause is invoked by the State.

5.6 AVAILABILITY OF FUNDS

The State's obligation to pay the contractor is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the State for payment of any money shall arise unless funds are made available each fiscal year to the Using Agency by the Legislature.

5.7 CONTRACT AMENDMENT

Any changes or modifications to the terms of the contract shall only be valid when they have been reduced to writing and executed by the contractor and the Director.

5.8 CONTRACTOR RESPONSIBILITIES

The contractor shall have sole responsibility for the complete effort specified in the contract. Payment will be made only to the contractor. The contractor shall have sole responsibility for all payments due any subcontractor.

The contractor is responsible for the professional quality, technical accuracy and timely completion and submission of all deliverables, services or commodities required to be provided under the contract. The contractor shall, without additional compensation, correct or revise any errors, omissions, or other deficiencies in its deliverables and other services. The approval of deliverables furnished under this contract shall not in any way relieve the contractor of responsibility for the technical adequacy of its work. The review, approval, acceptance or payment for any of the services shall not be construed as a waiver of any rights that the State may have arising out of the contractor's performance of this contract.

5.9 SUBSTITUTION OF STAFF

If it becomes necessary for the contractor to substitute any management, supervisory or key personnel, the contractor will identify the substitute personnel and the work to be performed.

The contractor must provide detailed justification documenting the necessity for the substitution. Resumes must be submitted evidencing that the individual(s) proposed as substitution(s) have qualifications and experience equal to or better than the individual(s) originally proposed or currently assigned.

The contractor shall forward a request to substitute staff to the State Contract Manager for consideration and approval. No substitute personnel are authorized to begin work until the contractor has received written approval to proceed from the State Contract Manager.

5.10 SUBSTITUTION OR ADDITION OF SUBCONTRACTOR(S)

This Subsection serves to supplement but not to supersede [Section 3.11](#) of the Standard Terms and Conditions of this RFP.

If it becomes necessary for the contractor to substitute and/or add a subcontractor, the contractor will identify the proposed new subcontractor and the work to be performed. The contractor must provide detailed justification documenting the necessity for the substitution or addition.

The contractor must provide detailed resumes of the proposed subcontractor's management, supervisory and other key personnel that demonstrate knowledge, ability and experience relevant to that part of the work which the subcontractor is to undertake.

In the event a subcontractor is proposed as a substitution, the proposed subcontractor must equal or exceed the qualifications and experience of the subcontractor being replaced. In the event the subcontractor is proposed as an addition, the proposed subcontractor's qualifications and experience must equal or exceed that of similar personnel proposed by the contractor in its bid proposal.

The contractor shall forward a written request to substitute or add a subcontractor to the State Contract Manager for consideration. If the State Contract Manager approves the request, the State Contract Manager will forward the request to the Director for final approval.

No substituted or additional subcontractors are authorized to begin work until the contractor has received written approval from the Director.

5.11 OWNERSHIP OF MATERIAL

All data, technical information, materials gathered, originated, developed, prepared, used or obtained in the performance of the contract, including, but not limited to, all reports, surveys, plans, charts, literature, brochures, mailings, recordings (video and/or audio), pictures, drawings, analyses, graphic representations, software computer programs and accompanying documentation and print-outs, notes and memoranda, written procedures and documents, regardless of the state of completion, which are prepared for or are a result of the services required under this contract shall be and remain the property of the State of New Jersey and shall be delivered to the State of New Jersey upon 30 days notice by the State. With respect to software computer programs and/or source codes developed for the State, the work shall be considered "work for hire", i.e., the State, not the contractor or subcontractor, shall have full and complete ownership of all software computer programs and/or source codes developed. To the extent that any of such materials may not, by operation of law, be a work made for hire in accordance with the terms of this Agreement, contractor or subcontractor hereby assigns to the State all right, title and interest in and to any copyright, and the State shall have the right to obtain and hold in its own name any copyrights, registrations and any other proprietary rights that may be available. To the extent that any of such materials may not, by operation of the law, be a work made for hire in accordance with the terms of this Agreement, contractor or subcontractor hereby assigns to the State all right, title and interest in and to any such material, and the State shall have the right to obtain and hold in its own name and copyrights, registrations and any other proprietary rights that may be available.

Should the bidder anticipate bringing pre-existing intellectual property into the project, the intellectual property must be identified in the bid proposal. Otherwise, the language in the first paragraph of this section prevails. If the bidder identifies such intellectual property ("Background IP") in its bid proposal, then the Background IP owned by the bidder on the date of the contract, as well as any modifications or adaptations thereto, remain the property of the bidder. Upon contract award, the bidder or contractor shall grant the State a non-exclusive, perpetual royalty free license to use any of the bidder/contractor's Background IP delivered to the State for the purposes contemplated by the Contract.

5.12 DATA CONFIDENTIALITY

All financial, statistical, personnel and/or technical data supplied by the State to the contractor are confidential. The contractor is required to use reasonable care to protect the confidentiality of such data. Any use, sale or offering of this data in any form by the contractor, or any individual or entity in the contractor's charge or employ, will be considered a violation of this contract and may result in contract termination and the contractor's suspension or debarment from State contracting. In addition, such conduct may be reported to the State Attorney General for possible criminal prosecution.

5.13 NEWS RELEASES

The contractor is not permitted to issue news releases pertaining to any aspect of the services being provided under this contract without the prior written consent of the Director.

5.14 ADVERTISING

The contractor shall not use the State's name, logos, images, or any data or results arising from this contract as a part of any commercial advertising without first obtaining the prior written consent of the Director.

5.15 LICENSES AND PERMITS

The contractor shall obtain and maintain in full force and effect all required licenses, permits, and authorizations necessary to perform this contract. The contractor shall supply the State Contract Manager with evidence of all such licenses, permits and authorizations. This evidence shall be submitted subsequent to the contract award. All costs associated with any such licenses, permits and authorizations must be considered by the bidder in its bid proposal.

5.16 CLAIMS AND REMEDIES

5.16.1 CLAIMS

All claims asserted against the State by the contractor shall be subject to the New Jersey Tort Claims Act, N.J.S.A. 59:1-1, et seq., and/or the New Jersey Contractual Liability Act, N.J.S.A. 59:13-1, et seq.

5.16.2 REMEDIES

Nothing in the contract shall be construed to be a waiver by the State of any warranty, expressed or implied, or any remedy at law or equity, except as specifically and expressly stated in a writing executed by the Director.

5.16.3 REMEDIES FOR NON-PERFORMANCE

In the event the contractor fails to comply with any material contract requirement, the Director may take steps to terminate the contract in accordance with the State Administrative Code. In this event, the Director may authorize the delivery of contract items by any available means, with the difference between the price paid and the defaulting contractor's price either being deducted from any monies due the defaulting contractor or being an obligation owed the State by the defaulting contractor.

5.17 LATE DELIVERY

The contractor must immediately advise the State Contract Manager of any circumstance or event that could result in late completion of any task or subtask called for to be completed on a date certain. Notification must also be provided to the Director at the address below:

The State of New Jersey
Director, Division of Purchase and Property
Purchase Bureau
PO Box 230
33 West State St.
Trenton, New Jersey 08625-0230

If the contractor cannot meet the contract completion date for any task or subtask required to be completed by a date certain, the contractor shall be liable to the State for damages incurred.

5.18 RETAINAGE

The amount of retainage is noted on the RFP cover sheet ([Page 3 of this RFP](#)). The using agency shall retain the stated percentage of each invoice submitted. At the end of each three (3) month period, the using agency shall review the contractor's performance. If performance has been satisfactory, the Using Agency shall release 90% of the retainage for the preceding three (3) month period. Following certification by the State Contract Manager that all services have been satisfactorily performed the balance of the retainage shall be released to the contractor.

5.19 STATE'S OPTION TO REDUCE SCOPE OF WORK

The State has the option, in its sole discretion, to reduce the scope of work for any task or subtask called for under this contract. In such an event, the Director shall provide advance written notice to the contractor.

Upon receipt of such written notice, the contractor will submit, within five (5) working days to the Director and the State Contract Manager, an itemization of the work effort already completed by task or subtask. The contractor shall be compensated for such work effort according to the applicable portions of its cost proposal.

5.20 SUSPENSION OF WORK

The State Contract Manager may, for valid reason, issue a stop order directing the contractor to suspend work under the contract for a specific time. The contractor shall be paid until the effective date of the stop order. The contractor shall resume work upon the date specified in the stop order, or upon such other date as the State Contract Manager may thereafter direct in writing. The period of suspension shall be deemed added to the contractor's approved schedule of performance. The Director and the contractor shall negotiate an equitable adjustment, if any, to the contract price.

5.21 CHANGE IN LAW

Whenever an unforeseen change in applicable law or regulation affects the services that are the subject of this contract, the contractor shall advise the State Contract Manager and the Director in writing and include in such written transmittal any estimated increase or decrease in the cost of its performance of the services as a result of such change in law or regulation. The Director and the contractor shall negotiate an equitable adjustment, if any, to the contract price.

5.22 CONTRACT PRICE INCREASE (PREVAILING WAGE)

If the Prevailing Wage Act (N.J.S.A. 34:11-56 et seq.) is applicable to the contract, the contractor may apply to the Director, on the anniversary of the effective date of the contract, for a contract price increase. The contract price increase will be available only for an increase in the prevailing wages of trades and occupations covered under this contract during the prior year. The contractor must substantiate with documentation the need for the increase and submit it to the Director for review and determination of the amount, if any, of the requested increase, which shall be available for the upcoming contract year. No retroactive increases will be approved by the Director.

5.23 ADDITIONAL WORK AND/OR SPECIAL PROJECTS

The contractor shall not begin performing any additional work or special projects without first obtaining written approval from both the State Contract Manager and the Director.

In the event of additional work and/or special projects, the contractor must present a written proposal to perform the additional work to the State Contract Manager. The proposal should provide justification for the necessity of the additional work. The relationship between the additional work and the base contract work must be clearly established by the contractor in its proposal.

The contractor's written proposal must provide a detailed description of the work to be performed broken down by task and subtask. The proposal should also contain details on the level of effort, including hours, labor categories, etc., necessary to complete the additional work.

The written proposal must detail the cost necessary to complete the additional work in a manner consistent with the contract. The written cost proposal must be based upon the hourly rates, unit costs or other cost elements submitted by the contractor in the contractor's original bid proposal submitted in response to this RFP. Whenever possible, the cost proposal should be a firm, fixed cost to perform the required work. The firm fixed price should specifically reference and be tied directly to costs submitted by the contractor in its original bid proposal. A payment schedule, tied to successful completion of tasks and subtasks, must be included.

Upon receipt and approval of the contractor's written proposal, the State Contract Manager shall forward same to the Director for the Director's written approval. Complete documentation from the Using Agency, confirming the need for the additional work, must be submitted. Documentation forwarded by the State Contract Manager to the Director must all include all other required State approvals, such as those that may be required from the State of New Jersey's Office of Management and Budget (OMB) and Office of Information and Technology (OIT).

No additional work and/or special project may commence without the Director's written approval. In the event the contractor proceeds with additional work and/or special projects without the Director's written

approval, it shall be at the contractor's sole risk. The State shall be under no obligation to pay for work performed without the Director's written approval.

5.24 FORM OF COMPENSATION AND PAYMENT

This Section supplements [Section 4.5 of the RFP'S Standard Terms and Conditions](#). The contractor must submit official State invoice forms to the Using Agency with supporting documentation evidencing that work for which payment is sought has been satisfactorily completed. Invoices must reference the tasks or subtasks detailed in the Scope of Work section of the RFP and must be in strict accordance with the firm, fixed prices submitted for each task or subtask on the RFP pricing sheets. When applicable, invoices should reference the appropriate RFP price sheet line number from the contractor's bid proposal. All invoices must be approved by the State Contract Manager before payment will be authorized.

Invoices must also be submitted for any special projects, additional work or other items properly authorized and satisfactorily completed under the contract. Invoices shall be submitted according to the payment schedule agreed upon when the work was authorized and approved. Payment can only be made for work when it has received all required written approvals and has been satisfactorily completed.

5.24.1 PAYMENT TO CONTRACTOR - OPTIONAL METHOD

The State of New Jersey now offers State contractors the opportunity to be paid through the Mastercard procurement card (p-card). A contractor's acceptance and a State agency's use of the p-card, however, is optional.

P-card transactions do not require the submission of either a contractor invoice or a State payment voucher. Purchasing transactions using the p-card will usually result in payment to a contractor in three days.

A contractor should take note that there will be a transaction-processing fee for each p-card transaction. To participate, a contractor must be capable of accepting the Mastercard. Additional information can be obtained from banks or merchant service companies.

6.0 PROPOSAL EVALUATION/CONTRACT AWARD

6.1 PROPOSAL EVALUATION COMMITTEE

Bid proposals may be evaluated by an Evaluation Committee composed of members of affected departments and agencies together with representative(s) from the Purchase Bureau. Representatives from other governmental agencies may also serve on the Evaluation Committee. On occasion, the Evaluation Committee may choose to make use of the expertise of outside consultant in an advisory role.

6.2 ORAL PRESENTATION AND/OR CLARIFICATION OF BID PROPOSAL

After the submission of bid proposals, unless requested by the State, contact with the State is limited to status inquiries only and such inquiries are only to be directed to the buyer. Any further contact or information about the proposal to the buyer or any other State official connected with the solicitation will be considered an impermissible supplementation of the bidder's bid proposal.

A bidder may be required to give an oral presentation to the Evaluation Committee concerning its bid proposal. The Evaluation Committee may also require a bidder to submit written responses to questions regarding its bid proposal.

The purpose of such communication with a bidder, either through an oral presentation or a letter of clarification, is to provide an opportunity for the bidder to clarify or elaborate on its bid proposal. Original bid proposals submitted, however, cannot be supplemented, changed, or corrected in any way. No comments regarding other bid proposals are permitted. Bidders may not attend presentations made by their competitors.

It is within the Evaluation Committee's discretion whether to require a bidder to give an oral presentation or require a bidder to submit written responses to questions regarding its bid proposal. Action by the Evaluation Committee in this regard should not be construed to imply acceptance or rejection of a bid proposal. The Purchase Bureau buyer will be the sole point of contact regarding any request for an oral presentation or clarification.

6.3 EVALUATION CRITERIA

The following evaluation criteria categories, not necessarily listed in order of significance, will be used to evaluate bid proposals received in response to this RFP. The evaluation criteria categories may be used to develop more detailed evaluation criteria to be used in the evaluation process:

In reference to page 13, Section 3.0, "Scope of Work": The requested services include collecting the water samples as well as analyzing them.

2. Page 13, Section 3.1, "Primary Water Quality": If the bidder uses a subcontracting laboratory for the project, should be (sic) proposal be structured to treat the lab as a formal subcontractor? There have been cases where it has been preferred that laboratory costs are categorized as a direct cost instead of a subcontractor. Please clarify.

In reference to page 13, Section 3.1, "Primary Water Quality": Bidder should see section 4.4.3.8 (page 19) of RFP (04-X-36683) in reference to any proposed subcontractors. Please complete pricing submissions as per the pricing sheet (Attachment 4, page 33).

3. Page 13, Section 3.1, "Primary Water Quality": Will the fixed sampling stations be identified via GPS technology? If so, will it be the responsibility of the contractor to fix the stations?

In reference to page 13, Section 3.1, "Primary Water Quality": Part one of question: Yes, fixed sampling stations will be identified via GPS technology. Part two of question: As per section 3.1, page 13, "The location (latitude and longitude) of three (3) to four (4) RVR fixed sampling stations (based on cost per sampling station) will be determined by NJDFW personnel, and need not be included in any proposal."

4. Page 13, Section 3.1, "Primary Water Quality": In-situ monitoring will be the most cost effective approach toward the collection of some of the identified parameters (i.e. temp and dissolved oxygen). As long as such in-situ monitoring is conducted as per US EPA, APHA acceptable protocol, does the State prefer such monitoring or is this entirely up to the contractor?

In reference to page 13, Section 3.1, "Primary Water Quality": As long as said monitoring conforms to protocols set forth in RFP 04-X-36683's "Scope of Work," and to US EPA and APHA standards, bidders may propose using the most cost effective sampling methodology.

5. Page 13, Section 3.3, "Plankton Sampling": Is the purpose to obtain the dry weights of the phytoplankton to calculate biomass?

In reference to page 13, Section 3.3, "Plankton Sampling": Section 3.3 will now read as follows:

"Phytoplankton – Separate one (1) liter samples for each stratum (epilimnion and hypolimnion) shall be taken and preserved according to US EPA and APHA standards. In the laboratory the volume of each sample shall be measured and concentrated to a final volume of 15 ml by settling. Settling times must conform to APHA recommendations. Phytoplankton shall be enumerated and identified to major taxonomic group. When classifying phytoplankton the contractor SHALL identify phytoplankton to class, and SHOULD identify phytoplankton to order when/where appropriate.

Zooplankton – Two (2) replicate vertical hauls, bottom to surface at each station shall be collected and preserved in accordance with USEPA and APHA standards. One sample shall be concentrated for net plankton biomass determination. The second sample shall be concentrated to volume of 50 ml, and replicate aliquots removed for zooplankton enumeration, body length measurements, and identification to major taxonomic group. When classifying zooplankton the winning bidder SHALL identify zooplankton to order, and SHOULD classify zooplankton to sub-order or family when/where appropriate."

6. Page 14, Section 3.3, "Plankton Sampling": What level of identification is preferred / required beyond major taxonomic groups (i.e. genus?). Does the State want more detailed taxonomic identifications beyond the general algal or zooplankton group?

In reference to page 14, Section 3.3, "Plankton Sampling": Please note answer to question 5.

7. Page 14, Section 3.4, "Reports": As part of the final report, the hired contractor is required to include a discussion on how the plankton and water quality relates to the RVR fishery. Will fishery data be provided to the hired contractor for a complete analysis?

In reference to page 14, Section 3.4, "Reports": Yes, existing fishery data will be provided to the contractor if requested.

8. Page 17, Section 4.4.2, "Section 2 – Technical Proposal": It is stated that there is a 15 page project description limit. Is this page limit for the Technical Proposal (Section 2) part of the bid package?

In reference to page 17, Section 4.4.2, "Section 2 – Technical Proposal," Part E: Please omit 15 page project description limit. There is no page limit.

9. Page 13, Section 3.1, and "Primary Water Quality": Do you require nitrate nitrogen alone, or can we substitute "nitrate + nitrite nitrogen"? For "Kjeldahl nitrogen", do you require total or soluble Kjeldahl nitrogen?

Part one of question: In reference to page 13, Section 3.1, "Primary Water Quality": Nitrite levels are not expected to be appreciable in RVR, but bidders may substitute a combined "nitrate + nitrite nitrogen" test as opposed to the "nitrate nitrogen" analysis if desired.

Part two of question: In reference to page 13, Section 3.1, "Primary Water Quality": NJDFW requires a Total Kjeldahl Nitrogen test.

10. Page 13, Section 3.1, "Primary Water Quality": Are nutrient and flow data available from reservoir input(s) and outlet(s)? Are any historic water quality, phytoplankton and/or zooplankton data available?

Part one of question: In reference to Page 13, Section 3.1, "Primary Water Quality": Yes, this information will be provided to the contractor if requested after the bid has been awarded.

Part two of question: In reference to Page 13, Section 3.1, "Primary Water Quality": Yes, however, any information that NJDFW has beyond that which is publicly available through libraries and such will be provided to the contractor, if requested, after the contract has been awarded.

11. Page 14, Section 3.4, "Reports": Annual reports are due at the end of calendar year (i.e., December); final sampling for each calendar year is also in December; do you require, for example, that data from the December 2004 sampling be included in the

2004 annual report? That would leave very little time for completion of analysis, data checking and reporting on the December samples.

In reference to page 14, Section 3.4, "Reports": Data gathered from December sampling activities MAY be included in the following year's reports.

12. Page 22, Section 5.11, "Ownership of Materials": Would we be able to publish the results of the study in the scientific literature, given NJ DEP prior approval of the proposed submission?

In reference to page 22, Section 5.11, "Ownership of Materials": Given prior NJDFW approval of the proposed submission, the contractor MAY publish their findings in an appropriate peer reviewed journal.

13. Page 33, "Attachment 4": For the primary water quality there will be up to 9 collections per year; however, for the zoo- and phytoplankton collections there will be up to 12 per year. That means there will be some collections were (sic) all we would do is collect plankton. Can we provide two prices for each plankton event...1 where we collect in conjunction with the water quality sampling and 1 where we only collect plankton?

In reference to page 33, "Attachment 4": No, please complete pricing submissions as per the pricing sheet.

14. Page 38, Section 3.7: Is it correct that the Academy of Natural Sciences of Philadelphia is eligible to compete for this contract? We are a private, non-profit organization with 501(C)3 tax-exempt corporation.

Is it acceptable for the contractor to invoice more frequently (e.g., after completion of one or more sampling rounds or for all sampling rounds in a

quarter, provided that adequate documentation is provided demonstrating the completion of that work)?

In reference to page 14, Section 3.4, "Reports": No, invoices shall only be accepted with semi-annual, annual, or final reports. Payments will be made twice a year

16. What is the frequency of alewife and other fish stocking? How many and what size are stocked during each stocking round?

This information will be provided to the contractor, if requested, after the contract has been awarded.

17. Has fish sampling been completed for the reservoir? Are historic water quality data available (other than that available via USGS and STORET web sites)? If so, are these data available for review prior to submittal of the proposals?

Part one of question: Yes, fish sampling has been conducted in RVR.

Part two of question: Yes historic water quality data is available.

Part three of question: No, any information that NJDFW has beyond that which is publicly available through libraries and such will be provided to the contractor, if requested, after the contract has been awarded.

18. Page 7, Section 1.2, "Background": The RFP mentions recent problems being encountered with alewife community. What is the nature of the problems, and when were these problems first observed?

In reference to page 7, Section 1.2, "Background": Declines in alewife and trout populations have been noted anecdotally by anglers and through NDFW surveys over the past ten years.

19. Is it intended that the final report will provide recommended actions to address problems which may be identified or only include assessment of trophic state/health of the system?

The final report shall include BOTH an assessment of trophic state/health of the system and recommended actions to address perceived problems identified during the course of the study.

20. Are their (sic) specific individuals who will make up the evaluation committee?

Yes, the evaluation committee will be made up of NJDEP and Purchase Bureau personnel.

21. Will technical approach and cost receive equal weighting in proposal evaluation? If not, what is their relative weighting?

Bid proposals are evaluated using cost and other factors. Cost is ranked and relative weighting cannot be discussed prior to bid submission.

22. Prices for the sampling is requested on a per sampling event basis. Are prices for the semi-annual and annual reports to be provided on a per report basis, or the total

for all reports (i.e., 4 annual reports, and 5 semi-annual reports) during the 5 year contract period?

Prices for semi-annual and annual reports are to be provided on a per report basis (i.e. price of 1 semi-annual report based on 3 or 4 fixed stations, price of 1 annual report based on 3 or 4 fixed stations, price of 1 final report based on 3 or 4 fixed stations).

23. There is no page number or section to use in reference to the following general question: Is funding firmly in place for this study, i.e., it is not dependent on state legislative appropriation this year or later?

This project is funded by Federal Aid in Sportsfish Restoration funds and is not dependent on State of New Jersey Legislative appropriation for this or any year.

24. Pages 13 – 14, Section 3.3, “Plankton Sampling”: Duplicate phytoplankton and zooplankton samples are to be collected. One sample of each phytoplankton pair is “to get net phytoplankton dry weights”. One sample of each zooplankton pair is to “be concentrated for net plankton (presumably zooplankton) biomass determination”. How should the contractor distinguish between the phytoplankton and the zooplankton that will be present in each of these water samples?

Please see answer to question 5.

25. Pages 13 – 14, Section 3.3, “Plankton Sampling”: The phytoplankton and zooplankton samples are to be preserved with Lugol’s solution. Although we have used Lugol’s solution for phytoplankton sample preservation in the past, we now are using glutaraldehyde solution. In addition, we use 3-4% buffered formalin solution for zooplankton sample preservation. Rather than use Lugol’s solution, may we preserve phytoplankton and zooplankton samples using glutaraldehyde solution and 3-4% buffered formalin solution, respectively?

Please see answer to question 5.

26. Page 14, Section 3.4, “Reports”: Semi-annual progress reports and annual progress reports shall be submitted with payment invoices. Does this mean that the

contractor shall submit only two invoices annually, the first in mid-year and the second just prior to the year's end?

Please see answer to question 15.

27. Page 14, Section 3.4, "Reports": Annual reports analyzing findings are to be submitted. Lastly, a final report detailing the findings of the multi-year study is to be submitted at the end of the project. "The final report.....relate to the overall Round Valley Reservoir fishery." We note that little guidance is given relative to analysis of the large amount of data that will be collected annually. These data could be evaluated with respect to spatial variation and temporally with respect to drawdown events. In addition, there are relationships among variables that could be explored, i.e., seasonal changes in zooplankton composition and body size related to phytoplankton composition and density and nutrient levels. Can more information about what the contracting agency considers important for study be provided, including the ultimate use of the data?

In reference to page 14, Section 3.4, "Reports": As stated in the RFP, the using agency is concerned about Round Valley Reservoir nutrient levels, water quality, productivity, and the plankton community through time. The using agency is also concerned with how possible increases in Raritan River pumping to RVR may affect the aforementioned parameters through time. The using agency is concerned with how the above stated may affect the alewife fishery, and is interested in any recommendations that the contractor may have in regards to all of these issues separately and as a whole.
